FROM 80 TO 90
Extended SuperSports 600cc Races: What They Say

The introduction of slick tyres into the FIM Asia Road Racing Championship has allowed for the race duration in the premiere SuperSports 600cc class to be extended. With effect from Round 2 at the Chang International Circuit in Buriram, Thailand, the SuperSports 600cc race duration had been increased from 80km to 90km. This averages out to an extra two laps per race for the SuperSports 600cc riders.

Here's what they have to say:

AZLAN

"I like it. A longer race means more room for rider and team strategy."

ZAQHWAN

"It's exhausting! Longer races equal more fighting."

KOYAMA

"I'm OK with the extra 2 laps. It's more exciting for everyone."

TAKAHASHI

"What extra two laps? I barely noticed them."

DIMAS

"It's good for the riders. The teams will need to re-strategize, especially on fuel and tyre strategies."

UNDERBONE RIDERS TAKE A SHORT HIATUS IN JAPAN

The third leg of the 2016 FIM Asia Road Racing Championship, scheduled at the Suzuka Circuit from June 3 to 5, 2016, will proceed without the unique presence of the Underbone 130cc class.

Stakeholders in the class had elected to skip a round of the championship.

The Underbone 130cc riders will be back in action for Indonesia, host for Round 4.

THE ASIA DREAM ENDURANCE RACE RETURNS

The success of the inaugural Asia Dream Endurance Race in 2015 has convinced race promoters that the 2-hour Endurance race should be a permanent fixture every time the FIM Asia Road Racing Championship visits the Suzuka Circuit. With the historic circuit set to hold Round 3 this June 3 to 5, the young Asia Dream Cup class of 2016 will be pairing up for their first taste of endurance racing.

The Asia Dream Endurance is an annual event to coincide with the FIM Asia Road Racing Championship. The endurance format only happens at Suzuka. What better way to expose the young riders to endurance racing than at the circuit that is famous for this type of motorsports events.

However, the Asia Dream Cup riders form only a small percentage of the total participants. They will be competing against other young Japanese teams and riders who will also be taking part in the event.

In 2015, the top three podium positions fell to the combinations of Seiji Maeda and Yoshiharu Okada; Seiji Yasutomi and Kouji Fukui; and third place Naoaki Kubo and Kouji Nishizawa. The best-performing Asia Dream Cup pairing came from Hiroki Nakamura and Yusuke Nakamura who finished seventh in the race followed by Broc Pearson and Kazuki Tomita.
